Art Unit: 1714

The amendment received June 8, 2004 has been made of record.

The restriction requirement contained in the previous office action is withdrawn in view of applicant's arguments.

The rejection under 35 USC 112 contained in the previous office action is withdrawn in view of applicant's amendment.

Claims 1-24 are pending.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 20, 21 and 24 are rejected under 35 U.S.C. 102(b) as being anticipated by Dinter et al.

Dinter et al disclose an apparatus for treating polymer moldings comprising a grounded transport means and an electrode for application of high voltage of 20 to 70 kv.

Therefore, the reference anticipates the rejected claims.

Claims 22 and 23 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 1-19 are allowed.
